Definition of Economically Disadvantaged: This number shows the percentage of students eligible to participate in the federal free and reduced-price lunch program or for other public assistance. Participation in these programs is often used as a measure of family income levels at a school.

Definition of LEP: Students are assessed as Limited English Proficiency using the TELPAS exam. Students may exit from LEP status based on recommendation from a school committee and parent permission.

Definition of At-Risk: There are 13 criteria, including students who are LEP, homeless, have failed a grade, are pregnant or parenting, have received below a 70 in a core curriculum subject in the preceeding semester or year, and students who have not passed one or more TAKS tests.

Definition of Mobility: Students who have missed six or more weeks of classes on a particular campus are considered mobile. Nationally, campuses with 20% or higher are considered mobile and at-risk, and campuses over 30% are considered hyper-mobile.
